

Ismay Colony Newsletter - Jan/Feb 2011

Over the past few weeks we have started our health and fitness badge and had a discussion (log chew) about healthy eating. We will complete this badge during the next half term.

The beavers celebrated Chinese New Year by making Chinese lanterns decorated with dragons, and by trying some different Chinese foods. - A very popular meeting!

They have also completed their air activities badge and for this we invited two guests along to our meetings. A. Foley, a pilot with Ryanair (and a cub dad) came along and gave a very interesting talk to the Beavers about his life as a pilot and they asked him lots and lots of questions, and Brian Magor came along to another meeting and brought his flight simulator along for all the beavers to have a go on. Brian said they all managed to land the plane - but not necessarily on the runway.

At our final meeting before the half term Ethan Lowey was invested. Welcome to Beavers and the scouting family Ethan.
