

Thor Beaver Colony newsletter

For February & March 2012

Our first night back after the half-term break, the University trainee doctors came in to talk to the Beavers, on what to do in an emergency, and showed how to perform C.P.R. plus the recovery Position. They split the Beavers into 5 groups, with each group having a trainee doctor. They used a Little Anne manikin to practise on. The doctors had them practising the recovery Position as well. We have celebrated St David's Day, with each Beaver making a Daffodil. The Beavers have made their own experiment glasses with different coloured lenses. They enjoyed looking at different objects with their special glasses.

We have presented the following badges and awards:-

Global Challenge: - Sam Sutton-Jeffs, Noah Holland, Aaron James & Sam Burkett
