Please remember your night and if you are unable to make it, it is your responsibility to try to swap nights with someone else and let me know-we do appreciate that we all have busy lives! We've got the WhatsApp group that this could help with. This rota covers up to the end of Mar and will continue in age order of Beaver in Apr with the parents of the new Beavers who have been invested, added in.

The parent helpers allow us to run smoother Colony nights and maintain a better adult:child ratio. It also allows you to see first-hand what activities your child does at pack meetings. Of course, we would always love to see more parents willing to lend a hand, so if you have a spare evening please let me know!

Thanks for your support,

River
